

# Dallas Enterprise Connectivity Solutions

Because Every Connection Counts

## Internet

DIA – 50 Mbps - 10 Gbps\*

# Dedicated Internet Access

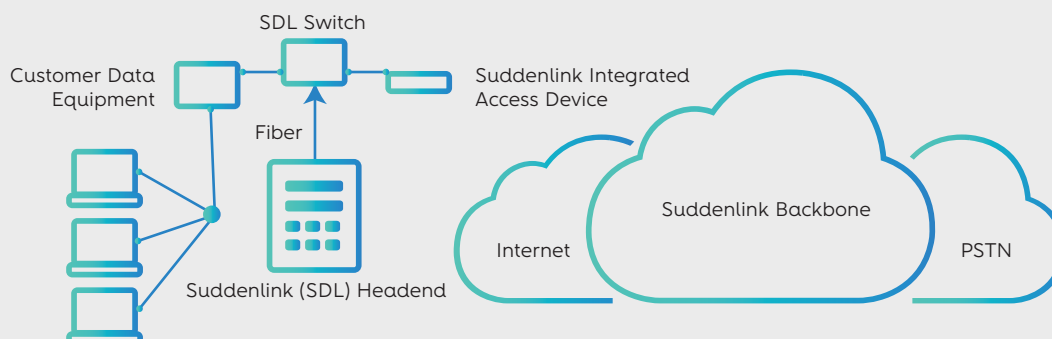

With our most advanced communications solutions ever, including the fastest Internet speeds available

## Features

- IP over IEEE 802.3-based full-duplex non-circuit switched services
- Provisioned on our advanced fiber-rich network from the customer premises to one of many hub locations throughout the Suddenlink Business network footprint
- Multiple levels of network fault tolerance provide a highly reliable and secure Internet access service
- Fiber connections to the Suddenlink Business network are managed by a dedicated network interface device
- Routing options are static routing or border gateway protocol (BGP)
- IP address space is included
- Suddenlink Business offers dual stacking of IPv4 and IPv6 address space

## Benefits

- Symmetrical bandwidth
- Service delivered over our advanced, fiber-rich network directly to your local area network (LAN)
- Scalable Internet speeds for all of your business needs ranging from 5 Mbps up to 10Gbps, depending on market availability
- Reliable service whether your business is in a metropolitan or outlying area
